358 Anti Climb Fence Double Gate

358 Mesh Double Swing Gate

358 Double Swing Gate, available in a double-leaf configuration, is constructed from hot-dipped galvanised steel and then fortified with a durable polyester powder coating. This coating not only protects against rust, corrosion, vandalism, and everyday wear and tear but also offers a selection of RAL colours for customisation, aligning with your corporate branding and giving your security fencing system and gate a sleek and professional appearance.

The gate incorporates the distinctive 358 Mesh, also known as Prison Mesh, due to its use in high-security facilities. This exceptionally robust wire mesh features a narrow pattern that obstructs object passage, making scaling or cutting attempts exceedingly challenging for intruders. However, it still allows for efficient perimeter monitoring, making it particularly suitable for scenarios where clear visibility is essential.
