3D Fence Sliding Gate/Suspended Gate/Tracked Gate

The 3D Fence Sliding Door is a type of door that uses three-dimensional (embossed) wire mesh panels as filling material. It is designed to slide parallel to the fence line. The interior of the door panel is filled with 3D mesh, which has unique embossing (wire bending) to enhance rigidity. Therefore, they are highly suitable for places with limited operating space. Due to their durability and safety, these doors are often used in private and industrial premises.

DESCRIPTION & CATEGORY

Height: 1.2 m, 1.5 m, 1.8 m, 2.0 m, 2.2 m, 2.5 m, 3.0 m

Width: 4.0 m, 4.8 m, 6.0 m, 10.0 m

Mesh Size: 50 × 100 mm, 50 × 200 mm, 75 × 150 mm

Wire Diameter: 3.0–5.0 mm

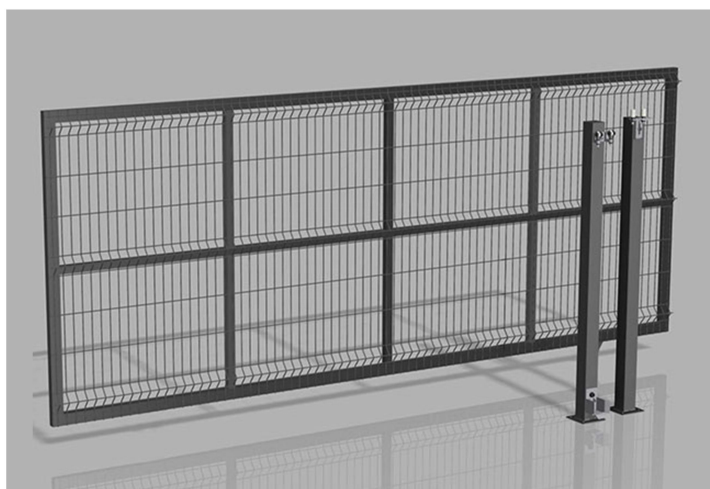

Post (square): 60 × 60 mm, 80 × 80 mm,
100 × 100 mm
