## Heavy-Duty Cattle Feeder

The Cattle Feeder is a durable and efficient feeding solution designed to support the nutritional needs of cattle in farms, ranches, and livestock operations. Built with heavy-duty galvanized steel, the feeder offers excellent corrosion resistance and long service life, even under harsh outdoor conditions.

This feeder ensures safe and economical feeding, reducing feed waste while allowing easy access for cattle of all sizes. Its smooth edges and reinforced structure help prevent injuries and withstand strong impacts from livestock. With a user-friendly design, the feeder is easy to transport, install, clean, and maintain, making it ideal for daily farm operations.

## DESCRIPTION

**Materials:** 2.0–3.0mm thick high-strength steel (frame & surface); galvanized steel (components); anti-rust electrostatic powder coating

**Overall Dimensions: Length (ramp surface):** 200cm – 400cm;

**Width:** 70cm – 90cm;

**Side Rail Height:** 90cm – 120cm

**Adjustable Parameters: Incline angle:** 15°–30°;

**Height (ground to ramp top):** 80cm – 180cm (fits most trailer/truck heights)

**Anti-Slip Design:** Diamond plate/grid surface (anti-slip coefficient  $\geq 0.8$ ); optional rubber mat overlay

### Key Components:

Lockable side rails (removable for easy cleaning); heavy-duty support legs (with anti-sink foot pads); safety latch (to secure ramp to trailer)

**Weight Capacity:**  $\geq 2000$ kg (supports adult bulls)

**Mobility:** Portable (with built-in handles/wheels) or fixed-mounted options

**Service Life:**  $\geq 12$  years (galvanized steel, proper maintenance)

**Product Description:** Available in multiple sizes and configurations—round, rectangular, adjustable, or cradle-style—the feeder can be customized to suit different herd sizes and feeding requirements.

## FEATURES & APPLICATION

### FEATURES

- ✔ Our Heavy Duty Round Bale Feeders are ideal for feeding round bales of hay to your cows, calves, and bulls.
- ✔ These feeders are easy to assemble and easy to relocate.
- ✔ Our round bale feeders are designed to be free of head and foot traps.

---

- ✔ The heavy duty skirted feeder has a bottom that is sheeted 20" up from the ground to decrease hay loss and protect cattle from leg injuries.
- ✔ These durable heavy duty feeders are designed to stand up to long term use.
- ✔ The slanted top rail design helps ensure that cattle keep their head in the feeder while eating, eliminating costly hay loss.

---

- ✔ Our standard, non-skirted heavy duty round bale feeder features additional vertical braces to added strength and durability.
- ✔ Architectural Grade Powder Coat Finish with UV inhibitors add years of life to your investment by helping the product resist rust, scratches and fading.

### APPLICATION

Farm

Ranch

Tourist Attraction

Cattle Feeding

Dairy Farm
