Palisade Fencing Sliding Gate/Suspended Gate/Tracked Gate

This fence-style sliding gate is designed for high-security, long-life outdoor environments, suitable for industrial parks, commercial parks, residential communities, and perimeter protection. The gate is constructed from high-strength galvanized steel or aluminum alloy (multiple material options available), featuring vertical fence bars and a pointed anti-climb design at the top. This design effectively deters unauthorized intrusion while maintaining a clean and tidy appearance. The sliding mechanism utilizes a precision roller or track system, ensuring smooth opening and quiet operation even for large gates; it also supports manual or automatic control (such as remote control or access control card reader) to meet diverse usage needs.

DESCRIPTION & CATEGORY

Height: 1.2 m, 1.5 m, 1.8 m, 2.0 m, 2.2 m, 2.5 m, 3.0 m

Width: 4.0 m, 4.8 m, 6.0 m, 10.0 m

Angle Steel: 40 × 40 mm, 50 × 50 mm

Pale Size (W/D): 62 mm, 65 mm, 70 mm
