Welded Gabion Baskets

Welded mesh gabions are fabricated from hot-dipped galvanized or Galfan-coated steel wires through automated precision welding, in accordance with BS 1052. Each weld point is uniform and robust, ensuring the mesh retains its shape under heavy loads. The units are supplied as flat panels and assembled on-site using spiral binders or C-rings, enabling quick installation and significant savings in transportation and storage—reducing space requirements by up to 60%. Various surface treatment options are available, including Galfan alloy coating, which offers 3–5 times better corrosion resistance than conventional galvanization, making it suitable for highly corrosive settings.

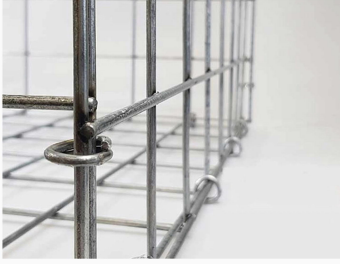

DESCRIPTION

In addition to traditional retaining and protective functions, welded gabions are increasingly used in architectural and landscaping applications. Their uniform grid pattern and aesthetic versatility make them a popular choice for building facades, feature walls, planters, and outdoor fireplaces. The modular design supports creative and functional uses in urban and scenic environments, combining structural performance with visual appeal.

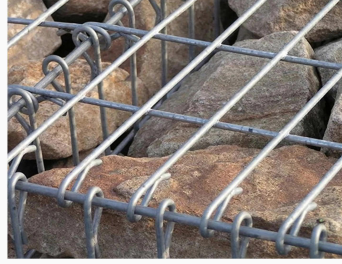

Photo	Gabion Size (m)	Mesh Opening (mm)	Wire Diameter (mm)	Surface Treatment
	0.5 × 0.5 × 0.5	50 × 50 50 × 100 50 × 200 75 × 75 100 × 100	3-6	Hot-dipped galvanized PVC coated Galfan Stainless steel wire
	1.0 × 0.5 × 0.5			
	1.0 × 1.0 × 0.5			
	1.0 × 1.0 × 1.0			
	1.5 × 0.5 × 0.5			
	1.5 × 1.0 × 0.5			
	1.5 × 1.0 × 1.0			
	2.0 × 0.5 × 0.5			
	2.0 × 1.0 × 0.5			
	2.0 × 1.0 × 1.0			
	3.0 × 1.0 × 1.0			
	4.0 × 1.0 × 1.0			

Generally, stiffener length 300 mm, spiral binder wire diameter 2-4 mm
 All sizes can customized according to your request

Connection Method

C-Rings Connection

Hook Connection

Spiral Wire Connection

U-Clips Connection

Installation

1. Welded Gabion Fitting

2. Welded Wire Mesh Panels Assembled With Spirals

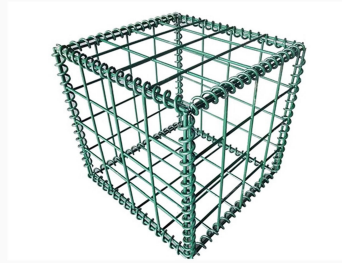

3. Completed Installation Of Gabion

Surface Treatment

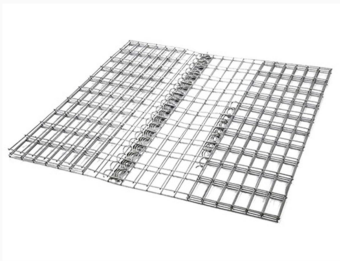

Galvanized

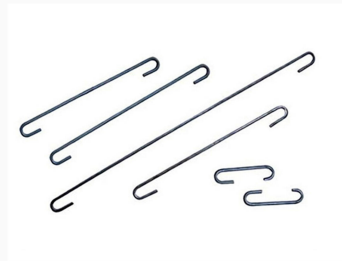

PVC-Coated

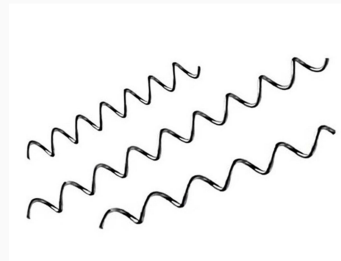

Welded Gabion Box Wire Mesh Accessories

1. Welded Wire Mesh Panel

2. Gabion Stiffeners Hooks

3. Spiral Wire Joints

WELDED GABION BOX DELIVERY

Features

- Galvanized steel wire for high tensile strength.
- Versatile for both residential & commercial uses.
- Infilled with cobblestones or timber logs display a modern, contemporary look.
- Easy to putting together, tool-less.
- Anti-corrosion, service life up to 30 years.
- Various sizes and styles for various garden design.

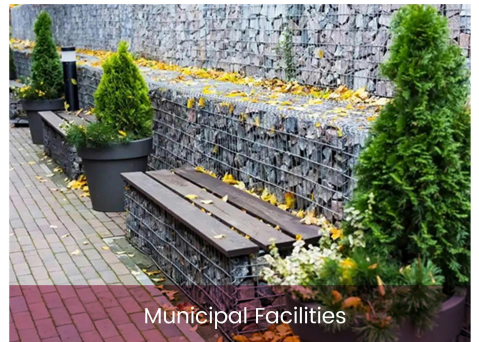

APPLICATION

Garden Protection

Landscape Wall

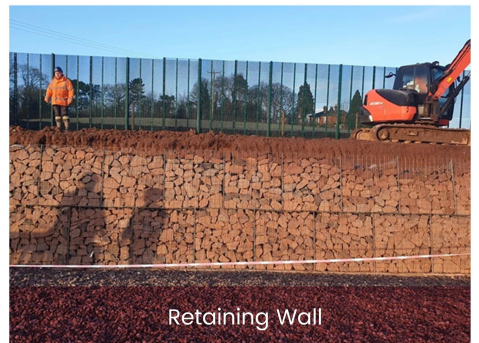

Municipal Facilities

Residential Fences

Bank Protection Project

Retaining Wall
